ABOUT MYSELF

I currently hold a non-staff HSE Specialist position at the Prigorodnoye Production Complex (Sakhalin-2 project). I am open to job offers. Looking for new interesting projects. I consider it critical for my personal development. I prefer thoughtful analytical work. I also consider other related professional fields, where my skills can be useful for achieving goals of company.
From an early age I am fascinated by computer science and everything connected with it.

COMPETENCES

Knowledge of the system of labour protection legislation of the Russian Federation, ability to analyze and apply normative-legal acts in the work. Ability to work with reference and information systems
